# Run a scheduled job manually

> Some scheduled jobs can be run manually from the ERP, if a need for that ever arises. Manual runs should not be the norm, as scheduled jobs are configured to auto-run atregular intervals.

To run a scheduled job, go to scheduled job's edit page and look for the "**Run scheduled job now** " button in the top right corner of the page.

On clicking it, the scheduled job will perform a manual run. Once the manual run is completed, it will be displayed on the list of last 30 runs logs with the message **"on demand run".**

| success | date | message |
|---|---|---|
| true | 2024-12-10 08:44:57 | on demand run |
| true | 2024-12-02 00:00:55 | |
| true | 2024-12-01 00:00:37 | |
| true | 2024-11-30 00:02:58 | |
