One **work equipment** can hold multiple versions of the same **product** (eg. shirts with different confection numbers: M, S, L, XL...).

Create work equipment

This action requires the "**create work equipment**" permission.

New work equipment can be created through the "**Create new work equipment**" form.

The screenshot shows a web interface for creating work equipment. At the top, there's a breadcrumb trail 'Home / Create work equipment' and a back arrow. Below this is a 'Basic information' section with several input fields: 'NAME' (with a red asterisk indicating it's required), 'PRODUCT' (a dropdown menu), 'FROM' (a date field with a calendar icon), 'TO' (a date field with a calendar icon), 'RESTORE INTERVAL (DAYS)' (a text field with '0,00' entered), and 'SAFETY STANDARDS' (a dropdown menu). At the bottom right of the form, there's a checkbox labeled 'After save, create another' and a 'Save' button.

When creating a work equipment, at least its name is required.

- **Name:**
 - The name should be descriptive, to avoid confusion with other work equipment.
- **Products:**
 - On or more products, that are used as this work equipment (safety goggles or shoes with different sizes...)
 - Only **products that have define confection size**, will appear here.
- **From:**
 - The date, when this work equipment becomes active (starts being used)
- **To:**
 - The date, when this work equipment becomes obsolete (stops being used)
- **Restore interval (days):**
 - Define the renewal period for employee equipment (they will get new equipment every **X** days).
- **Safety standards:**
 - Select which safety standards include this work equipment.
 - One work equipment can be used by multiple safety standards

Update work equipment

This action requires the "**update work equipment**" permission.

Save

Through the update form, you can update:

- **Name** of the work equipment
- **Products**, that are used as this work equipment
- How long the work equipment is valid (**From** and **To**)
- **Restore interval** (employees receive new work equipment every X days)
- **Safety standards**, that this work equipment is used by

Safety standards for work equipment can also be set from the safety standard update form.

Delete work equipment

This action requires the **"delete work equipment"** permission.

Work equipment can be deleted by toggling their checkbox when viewing in table or by clicking the "trashcan" button on the right.

You **can** only **delete work equipment** that is **not attached to any safety standards or work positions**.

Work equipment				Search...					
	NAME	FROM	TO	RESTORE INTERVAL (DAYS)	SAFETY STANDARDS	ACTIONS			
	SHOES	2024-09-01 00:00:00	9999-09-09 00:00:00	365
