When creating a work equipment, at least its name is required.

- **Name:**
  - The name should be descriptive, to avoid confusion with other work equipment.
- **Products:**
  - On or more products, that are used as this work equipment (safety goggles or shoes with different sizes...)
  - Only **products that have define confection size**, will appear here.
- **From:**
  - The date, when this work equipment becomes active (starts being used)
- **To:**
  - The date, when this work equipment becomes obsolete (stops being used)
- **Restore interval (days):**
  - Define the renewal period for employee equipment (they will get new equipment every **X** days).
- **Safety standards:**
  - Select which safety standards include this work equipment.
  - One work equipment can be used by multiple safety standards

# Update work equipment

This action requires the "**update work equipment**" permission.

Save

Through the update form, you can update:

- **Name** of the work equipment
- **Products**, that are used as this work equipment
- How long the work equipment is valid (**From** and **To**)
- **Restore interval** (employees receive new work equipment every X days)
- **Safety standards**, that this work equipment is used by

Safety standards for work equipment can also be set from the safety standard update form.

# Delete work equipment

This action requires the "**delete work equipment**" permission.

Work equipment can be deleted by toggling their checkbox when viewing in table or by clicking the "trashcan" button on the right.

You **can** only **delete work equipment** that is **not attached to any safety standards or work positions**.

<input type="checkbox"/>	NAME	FROM	TO	RESTORE INTERVAL (DAYS)	SAFETY STANDARDS	ACTIONS
