

Create new safety standard

This action requires the "**create safety standard**" permission.

A new safety standard can be created through the "[Create safety standard](#)" form.

Home / Add new safety standard

Basic information

NAME
SAF_ST_1

DESCRIPTION
Safety standard 1

WORK EQUIPMENT
Select work equipment

WORK POSITION
CNC operator I - Izmena1 x Višji razvojni inženir za programsko opremo - BS x CNC operator I x

After save, create another

When creating a new safety standard, at least the safety standard's name is needed. All other information can be entered later.

Safety standards do not have a naming convention, the **SAF_ST_** prefix is merely a suggestion.

When creating a new safety standard, you can define, for which work positions it applies.

Example: The **Kitchen** safety standard would apply work positions **chef, cook, dish washer...**
