

Processes

The processes section shows a list of processes that concern you. You can start these processes from here. You can also search through them with the search bar, located in the top right corner of the section.

The list can be refreshed with the button next to the search box, and the button to the side of the refresh button will open the processes list in the Process Manager application.

The screenshot displays the 'Processes' section of a web application. At the top left, the word 'Processes' is written in orange. To the right, there are two square buttons: one with an external link icon and one with a refresh icon. Further right is a search bar with the text 'SEARCH' and 'Search' below it. Below these elements is a horizontal tab bar with two tabs: 'PROCESSES' (highlighted in orange) and 'IN PROGRESS' (light gray). Under the 'PROCESSES' tab, there is a list of five process entries, each in a light gray row. Each row contains the process name on the left and a red 'Start' button on the right. The process names are: 'CANCEL EMAIL ADDRESS', 'ERP PERMISSION', 'GUEST ARRIVAL', 'IT-003-ODHOD ZAPOSLENEGA', and 'NAJAVA IZOBRAŽEVANJA'. At the bottom right of the list, there is a pagination control with buttons for '<<', '<', '1 / 3', '>', and '>>'.
