

Batch copy model file manager tool

This tool is used for copying whole file manager contents between several entries of the same model type at a time.

This tool allows copying of file manager between multiple entries of the same model.

The screenshot shows a web interface for the 'Batch copy model file manager' tool. At the top, there are three tabs: 'File Uploader', 'Copy model file manager', and 'Batch copy model file manager' (which is active). Below the tabs, the title 'File manager copier (batch)' is displayed. A dropdown menu labeled 'SUPPORTED MODEL' with the text 'Select a model...' is present. Below this, there is a section titled 'Import from list' and a sub-section 'Map ID to ID (3)'. This section contains three rows, each with two input fields: 'COPY FILE MANAGER CONTENT FROM ID' and 'COPY FILE MANAGER CONTENT TO ID'. Each row also has a red 'X' button. To the right of the 'Map ID to ID (3)' section is an 'Add new row' button. Below the input fields, there is a checkbox labeled 'DELETE FILES ON 'COPY FROM' ENTRY'. At the bottom of the form is a 'Copy files' button.

First, select the source model type from the list of supported.

Then, enter the source (*copy from*) and target (*copy to*) IDs in the "Map ID to ID" section.

Map ID to ID (1) Add new row

1	COPY FILE MANAGER CONTENT FROM ID 2154324	COPY FILE MANAGER CONTENT TO ID 54325432	X
---	--	---	---

DELETE FILES ON 'COPY FROM' ENTRY

Copy files

You can also paste a comma-separated lists into the **"Import from list"** form to import values into the **"Map ID to ID"** section.

Take notice of ID position in the "copy to" and "copy from" lists while importing values form lists. Check all imported data in the mapping section before running the copying function.

Import from list
Import will overwrite existing ID to ID mapping.

MOVE FILE MANAGER CONTENT FROM ID
1,2,3,4,5,6,7,8,9

MOVE FILE MANAGER CONTENT TO ID
2,3,4,5,6,7,8,9,10

Import from list

Clicking on the **"Copy files"** button will copy files from every source entry to the target entry.

If the **"Delete files on source model"** checkbox is ticked when the **"Copy files"** button is clicked, the files on the source entry will be deleted.
