YEAR
2026

The page displays an overview of available/used vacation balances (annual, transferred and special vacations).

Annual Vacation			Transferred Vacation		Special Vacation	
20	12	8	0	0	7	0
Assigned	Used	Available	Used	Available	Assigned	Used

Under the overviews, a graph is shown, with selected year's vacation balances (all allocated days, used days and remaining days).

Next to the graph is a table, which lists user's vacation leaves, their usage duration, available, used and remaining days counts and the vacation leave **"active"** state.

Active state sets, **if** the **vacation** leave **can still be used** or not. **Clicking on the YES/NO labels will display** an **explanation** of why the vacation leave is in/active.

Under the graph is a toggleable section, that shows the selected user's vacation use by month for the selected year..
