Here are the latest updates to the ERP system:

- **Fixed Assets:** Added a new "Cost Center DW3" column to the table view for better tracking.
- **Invoices Received:** Improved the accuracy of invoice items by ensuring tax rates and values update automatically when changing accounts or categories.
- **Signatures:** You can now categorize signatures by "Type," specifically distinguishing between "Default" and "Logistics" signatures.
- **Stock Exports:** Added a notification to confirm when an Excel export is being sent to your email instead of downloading directly.
- **Form Notifications:** Updated error messages to appear as clear pop-up alerts, making it easier to see which fields need correction before saving.
