

2026-09-14

- Introduced a new 3D loading screen that displays rotating status messages during app startup.
- Expanded Contact and Opportunity profiles to include specific sections for Industries, Solution Areas, and Solutions.
- Streamlined the creation of Delivery Notes with a simplified item entry form and the ability to copy shipping addresses directly from partners.
- Added an "End of Month" option to Payment Terms that automatically moves due dates to the last day of the month.
- Improved the email client with support for attachment downloads, better file previews, and a new interactive search help guide.
- **Production Planning Visibility:** Added planning priority and sequence columns to work orders, providing better insight into production scheduling.
- **Flexible Payment and Booking:** Introduced an "End of Month" option for payment terms and a manual booking date selector for rebooked goods.
- **Enhanced User Experience:** Launched a new 3D loading screen and added a "Search Hints" guide to the main menu to help users navigate complex searches.
- **Improved Document Handling:** Streamlined the process for adding items to delivery notes and improved the preview and download functionality for email attachments.
- **Interface Persistence:** The system now remembers your sidebar preferences (collapsed or expanded) as you navigate between different sections of the app.
