

2026-09-21

Changelog

- **French Language Support:** Added full support for the French language, including specific date and number formatting options in user profiles.
- **Assembly Blocking & Approvals:** Introduced a safety gate that blocks assembly tasks for "release candidate" products or units requiring modifications; these can now be authorized through a new Task Approvals page.
- **Task Management Improvements:** Users can now cancel and reopen tasks directly from the interface, and task time tracking now clearly distinguishes between working and non-working time.
- **Connection Health Indicator:** Added a new status icon that alerts users if their live connection to the server is lost, ensuring data visibility is always clear.
- **Enhanced Printing & Visibility:** Enabled printing of device license certificates from the serial and order dropdown menus and added warning icons to highlight overdue engraving materials.
