Here are the updates for version 1.708.0:

- **German Language Support:** Added full support for the German language across the entire platform, including all forms, menus, and system messages.
- **Status Management:** Introduced a "Remove Status" option for documents within supported workflows, allowing users to clear a document's current status while preserving its history.
- **Sales Order Documents:** Added a new section to sales orders that allows users to view and download external documents, such as invoices and delivery confirmations, directly from the order page.
- **Improved Quote and Product Forms:** Added a new "Issue Date" field to quotes with automatic validation and expanded product forms to include specific sections for supplier instructions regarding programming, calibration, and testing.
- **Account Tools and Interface Updates:** Added a feature to convert existing Accounts into Departments and redesigned the time picker tool to make selecting and editing times more intuitive.
