- **German Language Support:** Added full support for the German language across the system, including all forms, menus, and reports.
- **Status Management:** Introduced the ability to remove a status from a document, allowing it to remain status-free while preserving its history. Workflow administrators can now enable or disable this option per workflow.
- **Sales and Quotes Improvements:** Added a new "Issue Date" field to quotes and a dedicated section for viewing and downloading external documents related to sales orders.
- **Enhanced Product Details:** Expanded product forms to include new fields for supplier-specific requirements, such as programming, calibration, testing instructions, and additional notes.
- **Improved Scheduling Tools:** Updated the time picker for easier entry and enhanced the activity calendar to allow for smoother event creation and automatic duration adjustments.
