

2026-10-08

Here is the changelog for the latest updates:

- **Production Tracking:** You can now link internal services (INT) directly to packing work orders to better coordinate related tasks.
- **AGV Robot Management:** Added an "Alternative Pickup Users" settings panel to handle delivery redirects when a user is unavailable, and improved warnings for unidentified box shapes.
- **Credit Notes:** When creating batch credit notes, the system now automatically uses the pricing from the original product lot.
- **Expanded Help Guides:** Added new step-by-step documentation for CRM accounts, contacts, software licenses, and the product configurator.
- **License Fixes:** Resolved an issue where newly generated license files would not display immediately on the page.
