- **Recurring Activities:** You can now set activities to repeat on a daily, weekly, monthly, or yearly basis, with improved visibility for upcoming events.
- **Enhanced Email Client:** Added "Reply All" support and the ability to directly attach Quote PDFs to your email messages.
- **Advanced List Filtering:** Introduced new column-level filters to various lists (including Accounts, Leads, and Opportunities) to help you find specific records more quickly.
- **Inventory & Serial Management:** Added a new Inventory menu and a "Quick Calibration Quote" tool to streamline the management and quoting process for product serial numbers.
- **Real-time Form Validation:** Forms for creating Accounts, Contacts, and Leads now provide instant feedback as you type to help prevent errors before saving.

Here are the updates for version 1.722.0:

- **AGV Control Panel Alerts:** Added "outdated" notifications to alert you when data (such as missions or station buffers) has changed on the server, including a button to refresh the view.
- **Work Order Material Transfers:** Added a new "Add All" button to quickly include all movable materials in a transfer.
- **Warehouse Location Tracking:** Improved material moves between work orders to automatically remember and maintain original warehouse locations.
- **Form Improvements:** Fixed an issue where the specific order of items selected in multi-select fields was not being saved correctly.
