2026-11-06

Here are the changes in this version:

- **Improved Visibility:** Updated the browser tab icon (favicon) to be larger and sharper.
- **Enhanced Filter Sharing:** You can now share table filters with multiple users at once.
- **Warranty Certificate Updates:** Improved the way warranty certificates are generated and opened for sales orders and serial numbers.
- **UI Fix:** Fixed a display issue in the Confection Number Picker to ensure all content is visible without unnecessary scrolling.
