

Create New Entry

This example uses the Create new product form.

A new entry (or a new table row) can be added by navigating to the **"create new"** form, accessible by pressing the "+" button in the top right of the page (if the button is present).

The screenshot shows a table with the following structure:

SHORT NAME ^	PRODUCT TYPE	PRODUCT CLASSIFICATION	ACTIONS
#####SIBIIS.SROYE.DC.BOARD.V1	Material	Circuits	[+], [-], [X]

The table has a search bar at the top right with the text "Search...". The table header is light blue, and the table body is white. The table has a "+" button in the top right corner, which is highlighted in orange. The table also has a "-" button and an "X" button in the top right corner. The table has a "PRODUCT TYPE" column with the value "Material" and a "PRODUCT CLASSIFICATION" column with the value "Circuits".

This takes you to the **"Create new"** form page.
