

Lunch info

The [lunch info tab](#) displays the lunch export for month and for year.

The generated lunch export lists all employees and the paid/unpaid counts of their lunches. This export is used during salary calculation.

Generate lunch export for month

To generate this export, select the month in a year and click the "**Generate lunch export for month**" button.

Generate lunch export for month

CHANGE MONTH
📅 Feb 2026

Generate lunch export for month 🍌

Generate lunch export for year

To generate this export, select the year and click the "**Generate lunch export for year**" button.

Generate lunch export for year
