

HR troubleshooting

Before the end of the month, HR has to look over everyone's work time for the current month and alert leads of employees whose work times show errors.

While most employees won't show as problematic, sometimes errors will appear that users cannot fix on their own. These errors are addressed by the HR department. Among these, errors such as multiple registrations, wrongly inputted work trip or sick leave...

The screenshot shows an HR dashboard interface. At the top, there are filters for 'DEPARTMENT' and 'EMPLOYEES', and a dropdown for 'EMPLOYMENT TYPE' set to 'Contractors'. Below this is a section titled 'Coworkers workflow' with a date range of 'Jan 2024'. The main part of the dashboard is a grid table with columns for dates from 1.1 to 31.1 and rows for 'User 1' through 'User 7'. Each cell in the grid contains a status icon: a green checkmark for approved work, a tree icon for absence, a calendar icon for a work trip, or a yellow warning circle for an error.
