

Step 2: Check

Begin packing

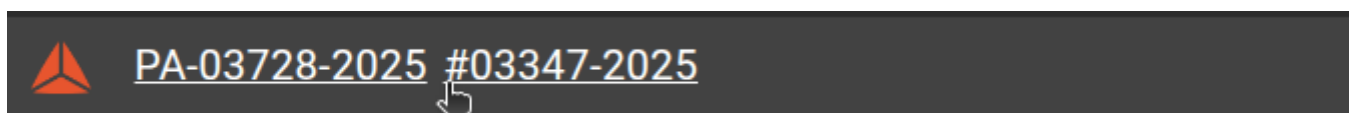

In this step, you have a quick overview of the packing order. If any issues are found in the packing work order, they are listed here.

If the work order has no problems, the "**Everything OK**" message is displayed.

View packing work order and order

You can click the order and packing work order document numbers to open them in browser.

View Order comments

You can view public and private comments of the order that the packing work order belongs to. Private comments are shown above the QR code by default.

To view all comments, click the "**speech bubble**" icon next to the order document number.

Escalate work order

A packing work order can be **escalated** to a specialist, who can assist you with problematic packing work orders.

When you "**escalate a packing work order**", you notify a "**specialist**" to assist with a problematic packing work order.
