

Edit product list

This required the **Update price list versions** permission.

To edit a price list version's products, you have to open the product list in editing form.

Clicking on a **product category** in the hierarchy view opens up the **product list for that category**, e.g. **Network accessories**.

The screenshot shows a product list interface with a table of products. The table has columns for Transfer price, MSRP, Test (transfer), and Gross margin. The data is as follows:

Product	Transfer price	MSRP	Test (transfer)	Gross margin
DS-18xLAN-L1B	€2,500.00	€3,572.00	€3,571.43	30%
DS-18xLAN-R345	€2,500.00	€3,572.00	€3,571.43	30%
DS-18xLAN-R345-L1B	€2,500.00	€3,572.00	€3,571.43	30%
DS-6xLAN-L1B	€1,933.00	€2,762.00	€2,761.43	30%
DS-6xLAN-R345	€1,811.00	€2,588.00	€2,587.14	30%
DS-WFH	€1,691.00	€2,416.00	€2,415.71	30%

Transfer prices, MSRP, and reference points

The three middle columns act as your guidelines and should be used to fine-tune the prices on your price list:

The diagram shows three columns with the following labels:

- Transfer price
- MSRP
- Select price list version

- **Transfer price**
 - The price at which you purchase from HQ.
- **MSRP**
 - HQ's **suggested** sales price.
- **Select price list version**
 - Is customizable. You can select a price list from the drop down menu as an additional point of reference.

Adjusting product prices and gross margins

The last two colored columns are used to adjust your product prices and are interconnected.

The diagram shows two columns with the following labels and values:

Test (transfer)	Gross margin
€3,571.43	30%
€3,571.43	30%

If you **adjust the gross margin**, your **product price will change**.
 If you **adjust the product price**, your **gross margin will change**.

Revision #15
