

Price list products

Clicking on a **product category** in the hierarchy view opens up the **product list for that category**, e.g. **Network accessories**.

The screenshot shows a user interface for viewing a product list. At the top, there is a breadcrumb trail: "Home / Test (transfer)". Below this is a checkbox labeled "SHOW EMPTY TAGS". The main content area is titled "Product list" and contains a sub-section "All products" which is expanded to show four categories: "Dewesoft products", "3rd party products", "Dewesoft services", and "Dewesoft Monitoring products". Each category is preceded by a right-pointing arrow icon.

The "**Listed products**" column displays product's short name along with a hyperlink icon.

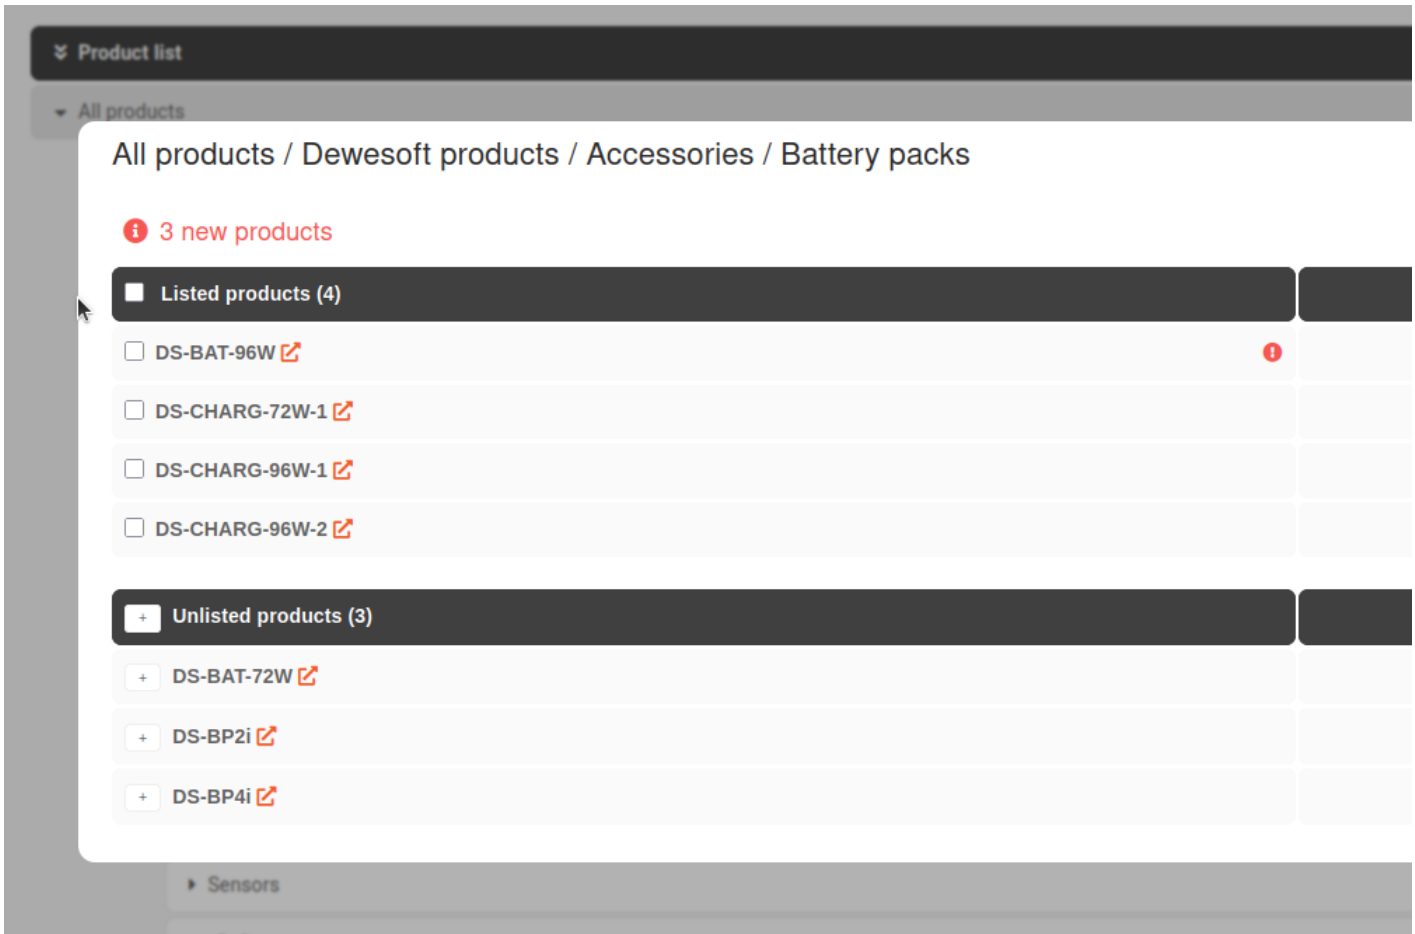

You can **hover** the **hyperlink** to **display** some **product info**. **Clicking** the **hyperlink** **redirects** you to the product page on **Configurator store**

Managing listed/unlisted products

Products included in your price list will appear under '**Listed products**'.

Products that have been removed or have not yet been added can be found under '**Unlisted products**' at the bottom.

Adding an unlisted product

To add an unlisted product into the price list, click the "+" button next to its short name. The product will then be added, allowing for the price and margins to be set.
