

# Replace product of work order item

This action requires the "**view work order items**" and "**update work order items**" permissions.

Open the "[Work order items](#)" table. Set the "**work order**" filter and filter work order items by your work order (e.g. DN-01895-2026).

This filter will list all items of the selected work order.

Once the filter is applied, and only items of the selected work order are shown, select the work order item, whose product you want to replace. The icon, which opens the edit form, will appear next to "**Product**" column name.

When at least one item is selected, the "**edit**" button appears next to "**Product**" column name. This edit form can be used to update several (up to a 100) work order items at once.

Work order items									
<input type="checkbox"/>	DOCUMENT NO.	WORK ORDER	PRODUCT	PRODUCT TYPE	PRODUCT CLASSIFICATION	STATUS	ORDER #	FACILITY	RE QUA
<input type="checkbox"/>	DN-01895-2026/2	DN-01895-2026	PIN.0000304.0... SIRIUSI- XHS-BxACC-2M	Product	Instruments	NEW		Proizvodnja inštrumentov	

Showing 1 to 50 of 1 entries | Show 5 10 25 50 100 per page

After agreeing, that you understand you are updating (multiple) items, you can set the new product of selected work order item(s). Clicking "**Save**" will update all selected work order items.

This example updates 1 work order item, but you can update multiple items (up to 100 at once).

Work order items									
<input checked="" type="checkbox"/>	DOCUMENT NO.	WORK ORDER	PRODUCT	PRODUCT TYPE	PRODUCT CLASSIFICATION	STATUS	ORDER #	FACILITY	RE QUA
<input checked="" type="checkbox"/>	DN-01895-2026/2	DN-01895-2026	PIN.0000304.0... SIRIUSI- XHS-BxACC-2M	Product	Instruments	NEW		Proizvodnja inštrumentov	

Showing 1 to 50 of 1 entries | Show 5 10 25 50 100 per page

Keep in mind that this only **replaces the product on the work order item**. If the work order item has any **serials**, the **product on those must be changes manually**. Work order item's **BOM (Bill of Materials) must be updated manually** as well.
