

Create new product

This action requires the **"create products"** permission.

New products can be created from the **"Create new product"** form, that can be accessed [here](#), or by clicking the **"Add new"** button above the **products** table.

Products     Search...     

From the form, a new product can be created.

To create a new product, at least a **product's name, short name** and **SKU** are required.
