

Delete permission(s)

Permissions should only be deleted by people, who understand their purpose and know the permission's uses.

To delete a permission, find it in the "[Permissions](#)" table and tick its checkbox. Then click and confirm the "**Trash**" button, that appears above the table.

The screenshot shows a web interface for managing permissions. At the top, there is a search bar with the text 'test' and a search icon. To the right of the search bar are several icons: a plus sign, a trash can, a document with an 'X', a grid, and a bell. Below the search bar is a table with the following columns: ID, NAME, DESCRIPTION, SLUG, ROLES, GROUP, and ACTIONS. The table contains one entry with ID 6619, NAME 'Test tasks', DESCRIPTION 'Test the systems tasks functionality.', and SLUG 'tasks-test'. To the left of the table is a checkbox. Above the table, there is a dark button with a trash can icon, which is the 'Trash' button mentioned in the text. Below the table, there is a pagination bar that says 'Showing 1 to 50 of 1 entries | Show 5 10 25 50 100 per page'.

ID	NAME	DESCRIPTION	SLUG	ROLES	GROUP	ACTIONS
6619	Test tasks	Test the systems tasks functionality.	tasks-test			 

Showing 1 to 50 of 1 entries | Show 5 10 25 50 100 per page
