

Update an existing permission

Permissions should be updated only by people, who know their purpose, as permissions are used to grant access to a parts of the ERP .

To edit an existing permission, find it in the permissions table and click on its **Edit** button.

Permissions				test				
	ID	NAME	DESCRIPTION	SLUG	ROLES	GROUP	ACTIONS	
	6619	Test tasks	Test the systems tasks functionality.	tasks-test				
	ID	NAME	DESCRIPTION	SLUG	ROLES	GROUP	ACTIONS	
Showing 1 to 50 of 1 entries Show 5 10 25 50 100 per page								

On the permission's page, you can update its name, description and group, that's used to show grouped permissions in permissions section on user and role page.

It is not recommended to update a permission's slug, as it may be used for programmatic access control.
