

# Update an existing role

Roles should be updated only by people, who know their purpose, as deleting a role that is required for a certain tasks will stop users from performing those tasks.

To edit an existing role, find it in the roles table and click on its **"Edit"** button.

SLUG ^	LEVEL	PERMISSIONS	USERS	ACTIONS
<input type="checkbox"/> task-tester-role	1000	<div data-bbox="758 698 1029 896">own-tasks   view tasks   cancel cancel-authorized create-media create-tags create create-authorized delete-media delete-tags delete delete_batch include input-serial-assembly-task menu reopen restore restore-authorized unlock update-media update-tags update update-authorized view-media view-tags view view-authorized</div>	<div data-bbox="1061 779 1157 806">john@doe.com</div>	<div data-bbox="1428 779 1492 817"> </div>

On the role's page, you can update its name and description, its assigned permissions and manage users, that have this role.

It is not recommended to update a role's slug, as it may be used for programmatic access control.

# ← Task tester role
