

Cancel goods rebooks

This action requires the "**Cancel goods rebook**" permission.

Goods rebooks cannot be deleted directly, due to the stock transactions that are connected to them. Instead, they need to be "**canceled**" first.

When canceling a goods rebook, make sure that it is the last transaction in product's lot. Trying to cancel a goods rebook, that is not last, will result in an error being shown.

When goods rebook cannot be cancelled (i.e. the error **"Transactions exist after this goods rebook."** appears), that usually means a transaction after this rebook has been created for one of the items on this rebook. To find the problematic item, list all items in the ["Goods rebook Items"](#) table and open every item's **Lot (Lot ID)**.

Σ	GOODS REBOOK	MOVEME... TYPE	QUANTITY	PRODUCT FROM	PRODUCT TYPE FROM	PRODUCT TO	PRODUCT TYPE TO	LOT ID	STATUS	CREATED AT	CREATED BY	ACTIONS

On the **"Lot"** page, open **"Stock transactions"** section, and check the **"Show goods transfers"** checkbox. All transactions, created after your goods goods rebook, are the reason, why the goods rebook cannot be canceled.
