

Delete goods transfer

Goods transfers can be deleted by users with proper authorizations.

Goods transfers cannot be deleted directly, due to the stock transactions that are connected to them. Because of this, goods transfers need to be canceled first.

Goods transfers with no stock transactions, such as "**Failed**" transfers, can be deleted without being canceled first.

Once a goods transfer is "**canceled**" and there are no existing stock transactions tied to it, it can be deleted from the table.
